Professional Foam Cleaner

Foam Cleaner is professional, multi-functional tool for the elimination of residues of fresh polyurethane foam and foam-adhesive. It is used to clean the mounting gun. You can also use a degreasing surfaces.

DIRECTIONS FOR USE:

To clean the gun, remove the used can of foam. Press the lever of mounting gun and release the remaining foam. Shake well (at least 20 times) and remove the protective cap. Attach the nozzle on the spray valve. During the using the can must be kept with the flap side down. Apply the liquid to the gun's nozzle and the cylinder gear (seat). Wipe with a dry cotton cloth treated places. Remove the nozzle from the spray can and screw it to the gun. Make sure the connection is secure. Press several times on the gun mounting arm pointing in the direction of the jet. Leave cleaner for 2-3 minutes inside the gun. Re-click on the gun's lever to flush it from the foam residues. Do not leave cleaner too long screwed to the gun. Use at a surrounding temperature from -15°C to +40°C. Store in a cool, dry area and keep out of reach of children. Avoid direct sunlight and artificial radiation heaters.
